

Topic 5.4: Representations of Gender and Race on Currency

The proposal to include Harriet Tubman on the \$20 bill and Maya Angelou and Sally Ride on quarters opens an important topic for critical media analysis.

Given their constant use, the images on banknotes and coins become part of everyone's accepted stock of knowledge. We take for granted that George Washington looked like just he appears on the \$1 bill, Alexander Hamilton like he does on the \$10 bill, and so on. At the same time, [the vast majority of images on U.S. money have been of White men](#), conveying a message that women and people of color are less deserving of the honor of currency recognition.

The history of women and people of color on currency are largely untold stories. Since World War I, women have appeared only on coins, namely Susan B. Anthony, Sacagawea, and Helen Keller. Martha Washington appeared on \$1 silver certificates in 1886 and Pocahontas on the \$20 bill in the 1860s. Booker T. Washington was the first African American on a coin in 1946; Jackie Robinson, Duke Ellington, Rosa Parks, Martin Luther King, Jr. and Coretta Scott King, and the Tuskegee Airmen, among others have appeared since then. A Native American figure appeared on the Indian Head penny, but the model [was a liberty lady wearing an Native American head-dress](#); only a few million Buffalo nickels were minted in the early 20th century.

In these activities, you will analyze how women and people of color have been displayed on currency before proposing new images that suggest their importance and impact on American society and culture.

Activity 1: Examine the Images of Women and People of Color on Currency

- Explore the following resources about women, African Americans, and Native Americans on money:
 - [Women on Money](#), National Museum of American History
 - [Native American Images on Money](#), South Dakota Public Broadcasting
 - [For the Love of Money: Black Icons on U.S. Currency](#), Google Arts & Culture
- Select one currency image featuring a woman, African American, or Native American and critically evaluate it using the [Teacher and Student Guide to Analyzing Images](#).
- **Create a video, screen recording, or interactive image to present your findings.**
 - Interactive image:
 - Start a new [Google Drawings canvas](#).
 - Upload a screenshot of the currency image to the middle of the canvas.
 - Insert text boxes and shapes to call attention to your findings.
 - Add links to additional information (e.g., the original image source).
 - Screenrecording:
 - If you have a Mac computer, [use this shortcut](#).
 - If you have access to Quicktime, here's [how to screenrecord using Quicktime](#).
 - Otherwise, use a web-based screenrecording tool such as [Screencastify](#), [Screencast-o-Matic](#), or [Loom](#).

Activity 2: Campaign for Changes in the Images on Currency

- Select a woman, Native American, Black American, or other traditionally marginalized individual who you believe deserves to be on U.S. currency.
- Then, **design a social media campaign** to encourage people to write to political leaders to add that individual to U.S. currency.
 - The social media campaign should include at least 2 videos (e.g., YouTube, Snapchat, TikTok), 5 example posts, and 3 images (e.g., memes, graphics, infographics) designed by you.
 - Here is a [social media campaign example](#) created by Justin Lo, Daniel Mulno, and David Warde and here is a [Twitter campaign example](#) by Sara Shea.
 - Make sure to describe why the person you selected should be on U.S. currency.
 - Bonus: Create a prototype drawing (digital or pencil/paper) of what the currency might look like with the individual you selected on it.

Activity 3: Design Images for Digital Currency

[Digital currency](#) is emerging as a means of exchange around the world. For example, early in 2021, China began testing in cities its own homegrown digital currency, the Electronic Chinese Yuan ([New York Times](#), March 1, 2021).

- Design a digital currency for use by the United States and other countries featuring influential individuals from history.
- You can use the following [Create Your Own Currency app](#) from
