Instructions

1. The facilitator will organize the class into six groups.
2. Each group is assigned one of the six PTA standards to study. Review the [National PTA Standards summary sheet](#) to gain

information about your assigned standard.

3. Consider the standard's purpose and how it can be used to bring schools and families together to improve each student's education.
4. Create a poster explaining your standard and post it in the classroom.
5. Using the session worksheet you used to record your thinking based on the cultural diorama and the asset map, record your developing understanding as you review each poster teaching about a PTA Standard.
6. The class engages in a gallery walk, reading each poster. Record your thinking on the session worksheet and using post-it notes, place questions you have or assertions you want to make on each poster.
7. Each group reviews the questions and prepares to answer the questions posted and assert the main ideas of their standard when called on. Take notes on your session sheet.
8. As a group discuss and then add to your session sheet how implementing these standards in your practice will assist families to participate in their child's education.
