# Checking Grammar and Spelling

EdTech Books does not have a built-in spell- or grammar-checker. Instead, you should either do most of this checking as you write your content on another platform before pasting it into the site (such as Microsoft Word or Google Docs) or use a browser extension such as [Grammarly](). If you encounter errors in your work after it has been uploaded to EdTech Books, you can use either the WYSIWYG Editor or the inline editing function in the top right corner of your screen. For more details on editing chapters, see [Editing a Chapter]().
