

Languages

Each book and chapter can be identified according to its language by selecting the desired language from the *Language > Content Language* dropdown menu while editing.

The screenshot shows a user interface for editing a chapter's language. At the top, there is a grey header with a downward arrow and the text "Language". Below this, the label "Content Language" is positioned above a dropdown menu. The dropdown menu is open, showing "English" as the selected option. Below the dropdown, a small text note reads: "This setting helps readers find content in their desired languages." In the bottom right corner of the panel, there is a green button with the text "Save chapter".

Once selected, the book will be listed with other books of the same language on the "[Browse Books by Language \[https://edtechbooks.org/-jsn\]](https://edtechbooks.org/-jsn)" page.
