

Enumerated and Implied Powers

Standard 6.3: Enumerated and Implied Powers

Distinguish among the enumerated and implied powers in the United States and the Massachusetts Constitution. (Massachusetts Curriculum Framework for History and Social Studies) [8.T6.3]

FOCUS QUESTION: What is the Difference Between Enumerated and Implied Powers?

This standard looks at the differences between **enumerated** and **implied** powers in the United States and Massachusetts Constitutions.

- **Enumerated powers** are those expressly granted to the federal government by the Constitution.
- **Implied powers** enable the federal government to carry out tasks outlined by the enumerated powers.

1. INVESTIGATE: The Enumerated and Implied Powers of the U.S. Constitution

The **enumerated powers** of the federal government are listed in [Article 1 Section 8](#) of the U.S. Constitution. Among the 18 direct powers given to Congress are the power to levy and collect taxes, borrow money, regulate commerce, coin money declare war, and support an army and navy (for a full list, see [Key Constitutional Grants to Powers to Congress](#)).

The 18th power gives the federal government the ability to create and enact laws that are “**necessary and proper**” for its use of the other 17 powers. The Necessary and Proper clause (sometimes called the “[Elastic Clause](#)”) gives Congress **implied powers**; that is powers not named in the Constitution, but necessary for governing the country. Historically, the way Congress has used its implied powers has led to important developments in law and society.

Suggested Learning Activity

- **Role-Play**
 - Explore the examples of how Congress has exercised its use of implied powers in the article [The Implied Powers of Congress](#).
 - Then, in small groups, propose a law that is necessary and proper for the federal government.
 - As a class, discuss and debate the proposed laws and vote on which ones should be approved as an official government power.

2. UNCOVER: Federal Minimum Wage Laws and the Implied Powers of Congress

Minimum wage laws are an example of both Congress and state governments using their implied powers to enact change in society. “Minimum wage laws establish a base level of pay that employers are required to pay certain covered employees” ([Legal Information Institute](#), Cornell University).

In 2019, the federal minimum wage was set at \$7.25 per hour. That same year, 29 states and the District of Columbia had higher wage rates; seven states had moved to \$15 an hour. The minimum wage rate in Massachusetts was raised to \$12 per hour, effective January 1, 2019. For much of United States history, however, there was no such thing as a minimum wage or a minimum wage law.

EMPLOYEE RIGHTS UNDER THE FAIR LABOR STANDARDS ACT

FEDERAL MINIMUM WAGE

\$7.25 PER HOUR

BEGINNING JULY 24, 2009

The law requires employers to display this poster where employees can readily see it.

- OVERTIME PAY** All least 1 1/2 times the regular rate of pay for all hours worked over 40 in a workweek.
- CHILD LABOR** An employee must be at least 15 years old to work in most non-farm jobs and at least 18 to work in non-farm jobs declared hazardous by the Secretary of Labor. Youths 14 and 15 years old may work outside school hours in various non-manufacturing, non-mining, non-hazardous jobs with certain work hours restrictions. Different rules apply in agricultural employment.
- TIP CREDIT** Employers of "tipped employees" who meet certain conditions may claim a partial wage credit based on tips received by their employees. Employers must pay tipped employees a cash wage of at least \$2.13 per hour if they claim a tip credit against their minimum wage obligation. If an employee's tip combined with the employer's cash wage of at least \$2.13 per hour do not equal the minimum hourly wage, the employer must make up the difference.
- NURSING MOTHERS** The FLSA requires employers to provide reasonable break time for a nursing mother employee who is subject to the FLSA's overtime requirements in order for the employee to express breast milk for her nursing child for one year after the child's birth each time such employee has a need to express breast milk. Employers are also required to provide a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public, which may be used by the employee to express breast milk.
- ENFORCEMENT** The Department has authority to recover back wages and an equal amount in liquidated damages in instances of minimum wage, overtime, and other violations. The Department may litigate and/or recommend criminal prosecution. Employers may be assessed civil money penalties for each willful or repeated violation of the minimum wage or overtime pay provisions of the law. Civil money penalties may also be assessed for violations of the FLSA's child labor provisions. Heightened civil money penalties may be assessed for each child labor violation that results in the death or serious injury of any minor employee, and such assessments may be doubled when the violations are determined to be willful or repeated. The law also prohibits retaliating against or discharging workers who file a complaint or participate in any proceeding under the FLSA.
- ADDITIONAL INFORMATION**
- Certain occupations and establishments are exempt from the minimum wage, and/or overtime pay provisions.
 - Special provisions apply to workers in American Samoa, the Commonwealth of the Northern Mariana Islands, and the Commonwealth of Puerto Rico.
 - Some state laws provide greater employee protections; employers must comply with both.
 - Some employers incorrectly classify workers as "independent contractors" when they are actually employees under the FLSA. It is important to know the difference between the two because employees (unless exempt) are entitled to the FLSA's minimum wage and overtime pay protections and correctly classified independent contractors are not.
 - Certain full-time students, student learners, apprentices, and workers with disabilities may be paid less than the minimum wage under special certificates issued by the Department of Labor.

Massachusetts passed the nation's first minimum wage law in 1912, followed by Oregon in 1914. But a 1923 Supreme Court decision struck down the District of Columbia's minimum wage law as unconstitutional under the Fifth Amendment. Public attitudes about the law's usefulness changed and so did the opinion of the Supreme Court when they declared a state minimum wage law constitutional in 1937 ([West Coast Hotel v. Parrish](#)).

Following that decision, President Franklin Roosevelt proposed, and Congress passed, the [Fair Labor Standards Act of 1938](#), setting the minimum wage at \$0.25 an hour (\$1.00 in 1938 is worth \$17.45 in 2019 dollars). The Fair Labor Standards Act also set the maximum work week at 44 hours and banned child labor.

3. Engage: Should the Nation Adopt a Living Wage Rather Than a Minimum Wage?

A **Living Wage** is the minimum income needed for an individual or a family to meet their basic needs for food, shelter, clothing, health care, and other needs ([What is a Living Wage?](#) from Global Living Wage Coalition). A living wage is based on the reality that most people cannot live adequately earning a minimum wage.

A [Living Wage Calculator](#) from Massachusetts Institute of Technology demonstrates the gap that exists between minimum wage and a living wage. In 2019, a single adult with one child earning \$11 an hour minimum wage actually needs to earn \$29.66 an hour to support her or his family.

Standard 6.3 Conclusion

The United States and Massachusetts constitutions have both enumerated (directly stated) and implied (assumed to exist) powers. **INVESTIGATE** outlined what those enumerated and implied powers are in the federal constitution. **UNCOVER** looked at the history of minimum wage laws as an example of the implied powers of the federal government. **ENGAGE** asked whether our country should adopt a living wage rather than a minimum wage as people's living standard.
