

Six Seconds Youth Version (SEI-YV)

The Six Seconds Youth Version measure comes highly recommended by CASEL (The Collaborative for Academic, Social, and Emotional Learning). It assesses 37 different aspects of social and emotional learning ranging from health, resilience, self-efficacy, life satisfaction, commitment, and connection, to collaboration. For a complete list, refer to the further research section below (Access, 2018). Appropriate for 2nd to 12th graders, it contains 99 questions on a 5-point Likert scale from *almost never* to *almost always*, with four open response questions; it can be completed in about 15 to 20 minutes. The open response questions ask students to complete sentences like “Emotional intelligence is important because . . . Emotional intelligence is” It also has a designated place for students to leave further comments. It is available in English, Spanish, Chinese, Italian, Arabic, and Lithuanian. The Six Seconds Youth Measure is scored by a computer that uses “an algorithm which standardizes the measures using validated international norms” (Access, 2018). Administering this tool requires a certification obtained through courses which require an admissions fee; also there is a five dollar cost per student. Six Seconds offers a few grants to cover the costs of this tool.

Pros for Schools

Recommended by CASEL
Assesses 37 social and emotional skills
2nd to 12th grade
Available in English, Spanish, Chinese,
Italian, Arabic, Lithuanian
Scored by a computer using validated
international norms
Reliable and valid

Cons for Schools

Charge of \$5 per student plus certification and
course fees for required adult certification.
99 Likert style items/4 short-answer questions
20 minutes to complete
